

Seismic Retrofit Program Notice to Residential Tenant

(Los Angeles Municipal Code Section 91.9307.1 or 91.9506.1)

Date:

Tenant's Name:
Tenant's Address:

Dear Tenant:

Please be advised that the Los Angeles Department of Building and Safety (LADBS) has determined that the building in which your residential unit is located meets the criteria for compliance with the City's **mandatory** seismic retrofit ordinance. The seismic retrofit ordinance requires owners to complete seismic retrofit work on the building, which will improve the performance of building during an earthquake thus making the building safer for you to live in.

Thank you
