

Table 1C. Required Enhanced Accessibility Features for Developments Subject to Substantial Alterations Only
--

- | |
|--|
| 1. For units not designed as open-concept, eliminate swinging interior doors within the unit and where possible provide additional clear maneuvering space beyond the minimum standard, while still allowing spaces to be closed off for privacy, e.g., pocket or sliding doors for doorways to kitchens, hallways, bedrooms, and bathrooms. |
| 2. Ensure visible alarms are installed along with the audible fire alarm system throughout the development, including in all units, consistent with 2010 ADA Standards 215 and 702. |
